The Virtual Welcome Fair is the perfect way for you to engage directly with 18,000 students. The fair will be a mix of Students' Union, commercial and university department exhibitors which we feel will offer students the best insight into what student life at Huddersfield has to offer.

The fair will simulate a virtual stall for each exhibitor. Visitors to the stands will be able to engage with content such as video, audio and text. They will also be able to download flyers, discount codes and vouchers. You will have the ability to collect some basic data from those that interact with your stall.
